"A considerable advanced has obtained in Illinois internal Improvement stock; 55 5-8 was bid for it this morning, but 60 asked. This is a rise of 5 to 10 per cent., and is owing to the advices published this morning from Washington, of the donation, by Congress, of lands to Illinois, in aid of the railroad constructing between Chicage and Mobile, which runs through the whole State of Illinois; and, also of another bill passed, and mly waiting the decision of the Senate on some dment made by the House, which bill makes over to the States all the swamp lands found in them; and Illinois has, it is estimated, three millions of acres of such lands which the State will reclaim; the success of which, will directly increase the security of the Internal Improvement stock."

On the 19th inst, we perceive by our New Yerd exchanges that a further rise of one per cent, had taken place.

From the Chicago Tribune. Mr Ogden's Withdrawal.

We publish below a letter from Mr. Ogres, an- REPORTED FOR THE FREE TRADER We publish below a letter from the pending Con-uncing his withdrawal from the pending Con-The remous assigned for this ressional canvass. The reasons assigned for this ourse on his part we doubt not will be satisfactory to a large majority of those who designed sup-porting him. Occupying the position which D Molony does on the great questions of the day, the choice between him and Mr. Ogden was narrowed down to one of merely personal preference, and in with maxing from the canvasa to afford the opportunity to all who entertain a unity of opinion on the expussions to unite in action, Mr. O. has exhibited a patriotic singleness of purpose which we doubt not will be fully appreciated by the people of this District.

As Dr. Molony has without hesitation or quali-ication pledged himself to the support of such measures as we advocate, touching the question of slavery, and as we cordially agree with him upon the other leading political questions of the day, we very cheerfully place his name at the ad of our columns as candidate for this Dis-

To J. H. Bayson, President of the Elgin Convention of Aug 29, 1850.

Dean Sin: My consent to a nomination for ongress, by the Free Democracy of this District, made at the Convention over which you presided, was, at the urgent solicitation of many friends, reluctantly yielded, on the ground, and under the impression and belief that the Joliet Convention uld be certain to nominate an anti-Wilmot Pro viso candidate, in disregard of our principles, and that the interests of the Free Soil party demand in favor of armed opposition to the execution of ed the personal sacrifice of inclination and inter-the fugitive slave law. The "fugitives" unanicest on my part in its mid. To these appeals solely I yielded, in opposition to the strong desire which I have, not to be a candidate for any polit

In commenting upon the least principles, in the main, if not entirely in accordance with our own. Should this information prove true, it certainly became a serious question as to the course to be pursued by us most calculated to advance the truths for which we do battle. At the urgent solicitation of many of our friends-tried and intelligent friends-I consent-

"1. Will you, if elected, vote for, and cordially support a bill prohibiting Slavery in the Terriries of the United States !

2 Will you vote for and support a bill abolish ing slavery in the District of Columbia? 8. Will you oppose the admission of any slave States which may be framed out of Texas or the Territories?

Will you vote for and advocate the repeal the fugitive slave law, passed at the recent session of Congress ! Will you advocate and vote for the election

who shall be willing so to organize the commit-tees of that House as to give the free States their just influence in the business of Legislation!"

His attention was also called at the same time tion of Bureau County, held on the 27th of Sep-tember, in the proceedings of which, yourself, Mr. Loveiny and others of the staunch friends of our principles, it appears, took part and approved.

These answers are broad and explicit, covering manfully, it seems to me, the main ground of the principles for which we contend; and as our objects have no regard for persons or distinct organ yon the slavery question, and on most other izations from those who adopt our principles, the progress and spread of which are the sole purpo ses in view, as is so clearly indicated in the action own opinion as to the wiser course to be pursued by us under existing circumstances, (although am aware that all may not approve it) and do CONCERT.—The Columbians will give us their hereby respectfully wiendraw my name as a canfirst Concert this evening at the Baptist Church, didate for Representative in Congress from this district, so honorably proffered me by the recent
